Issue #2026

TIMBER WOLF

BANDSAW BLADES

WHY CHOOSE TIMBER WOLF BLADES...

50% SHARPER TOOTH

Teeth are milled not stamped or crush ground

PRECISE HARDENING THROUGHOUT THE BLADE

Induction hardened versus flame hardened

EXTENDED SHARP TIME

Tooth edge is 20% harder than any high carbon blade

EXTENDED FLEX LIFE

Higher ductile steel than any high carbon steel

COOLER RUNNING BLADE

Dissipates heat 3x faster than high carbon steel

UTILIZES 20% LESS HORSEPOWER

Requires less tension

TIMBER WOLF BLADE SERIES

PC SERIES - For kiln dried wood

PC = Positive Claw

Available in 3/16" to 1" in many tooth pitches

Most of us would like to keep the tedious labor of planing or sanding to a minimum. Our PC Series of blades is our claim to fame. It is, in its design, everything a wood cutting blade was meant to be. It has over 60% of the speed capabilities that a hook is able to travel at, while at the same time giving you the great finish of a skip. By incorporating a "hook" style geometry in our gullet, we have given our blade the ability for fast chip removal. The depth and roundness of the gullet increases sawdust removal and cutting speed while the milled teeth help to reduce consumption of horsepower. Couple all this with our unique 6.5 degree rake angle, combined with our special 5 tooth set pattern (which allows us to reduce the set) and we now have a true "thin kerf", awesome cutting blade that gives you an excellent finish.

RK SERIES - For detail work

RK = RAKER TOOTH

Available in 3/16" to 1" in many tooth pitches

HP SERIES - For detail work

HP = HIGH PERFORMANCE

Available in 1/8" x 14 tpi

These blades have a very thin kerf and a 0 degree rake angle and are specifically designed for detail work in 1" and smaller kiln dry wood when a very clean finish is required. They are also very effective in plywood, particle-board and other similar products where tear-out is a concern. These blades can also be used to cut soft metals.

VPC SERIES - For straight-line resawing, kiln and air dry, up to 12" thick VPC = Variable Positive Claw

Available in 1/2" x 2/3, 1/2" x 3/4, 3/4" x 2/3 and 1" x 2/3

Resaw in kiln or air dry wood up to 12" thick! The variable pitch tooth design reduces resonance throughout the blade; this combined with different size teeth produces a very clean finish almost polishing the wood as it cuts. It is only 0.025 thick with an overall kerf of 0.049 & incorporates the unique geometry of our PC tooth design.

TPC SERIES - For straight line veneer cutting

TPC = THIN POSITIVE CLAW

Available in: 3/4" x 3 tpi

This blade's uniqueness lies in the fact that it is only .025 thick with our unique set pattern. The total overall set is less than .048 thousandths of an inch. When you are resawing very expensive woods that are thick and you want as thin a kerf as possible, a super finish, and you are not concerned with speed, this is the blade for you.

AS SERIES - For green or exotic wood

AS = ALTERNATE SET

Available in: 3/8 x 3, 1/2 x 2 or 1/2 x 3

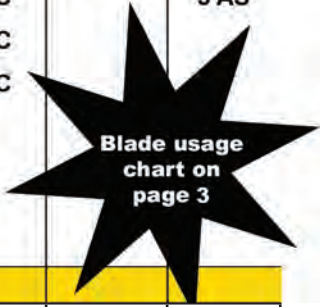

These small blades are unique in their body thickness, set, and rake angle. They are .032 thick, have an alternate set and a unique rake angle of 6.5 degrees. They also utilize the unique geometry of our PC gullet. These bands are primarily used in furniture industry. They have been designed to cut both fast and accurately in very thick wood such as stacked lumber. Woodturners use these blades to cut turnings out of large burls. Their applications are endless. Their performance is excellent if the thickness of your material exceeds 6 to 8 inches. These blades are not meant to be used on any 3-wheel saw or for that matter any saws with less than 90" blade length or wheel diameter less than 14".

URETHANE BAND SAW TIRES

*Our tires are standard thickness.
Be aware of tires that are too thin
and can cause a change in blade
length and wear out sooner.

- *Won't dry out like rubber tires
- *Urethane will stay flexible longer
- *No glue required
- *Safety orange color for better inspection
- *MADE IN THE USA

BAND SAW ZERO-CLEARANCE TABLE INSERTS

Band saw inserts get "chewd-up" with sufficient use. Replace with non metal!

- * Most are zero clearance but some you will be cutting your own slot
- * Semi rigid plastic or acrylic material
- * Will not hurt blades' teeth

Part#	Fits	Size (outside x inside)	Price
T11	14" Delta & Imports 12" Sears (91" blade) 14" Grizzly 18" Delta Shopsmith (72" blade)	2 1/2" x 2 3/16"	\$11.95/set of 3 3 standard

NEW WAVE SANDING DISCS

The new wavy edge design of these HI-PER GREEN discs overhangs the holder and arches around the edge. This helps prevent the edge of the disc from making lines on the inside of the curvature of a bowl or similar shape. Lines are usually caused by the edge of the disk contacting the surface of the wood. The disc is made of Hi-Per Green "J" weight paper and backed with hook and loop material. There is a serrated coating on its surface to reduce loading and clogging. New Wave hook and loop backed discs may be used on standard foam sanding pads, but for best results, the interface backing pads should be used between the foam pad and the discs.

(1) Back-up Pad
(10) each 80, 120, 150, 180, 220, 320 and 400 grit discs.

STICK FAST INSTANT CA ADHESIVE

What is it? The term "CA" is short for cyanoacrylate, a one-part instant cure adhesive. Stick Fast™ CA is formulated "Surface Insensitive" for bonding a wide variety of materials without a primer. A chemical synthesis process produces CA by changing acetate to acrylate. It is then further distilled 99.5% pure. This high level of purity gives it superior cure strength, reduces cure times, and helps increase stability and shelf life.

Product	Viscosity	Approx set time in seconds	
		Wood	Metal
CA-Thin	5 CPS	3-8	5-12
CA-Medium	500 CPS	8-15	10-25
CA-Thick	2000 CPS	10-25	15-30

CA Thin 1 oz...\$5.20 CA Thin 2.5 oz...\$8.95

Key Features:
Minimum of 99.5% pure Cyanoacrylate = clear, fast cure, strong
Absorbs into porous wood
5 cps viscosity - Water Thin
Fast setting and curing

Popular Uses:
Bonding smooth and hard non porous surfaces
Sealing wood to add strength and stop cracking
Using as a finish: ideal for pens
Wicks into joints for furniture repair; bonding without being disassembled
Bonding inlay materials such as stone and metal filings
Sealing natural edge bark to stay attached

CA Medium 1 oz...\$5.20 CA Medium 2.5 oz...\$8.95

Key Features:
Minimum of 99.5% pure Cyanoacrylate = clear, fast cure, strong
600 cps viscosity - Light syrup thickness
Fast setting and curing

Popular Uses:
Bonding smooth to slightly porous surfaces
Sealing wood to add strength and stop cracking
Using as a finish: ideal for pens
Versatile general bonding
Bonding inlay materials such as stone
Sealing natural edge bark to stay attached

CA Thick 1 oz...\$5.20 CA Thick 2.5 oz...\$8.95

Key Features:
Minimum of 99.5% pure Cyanoacrylate = clear, fast cure, strong
Gap filling
1500 cps viscosity - Thick syrup
Slightly longer setting and curing than Thin and Medium

Popular Uses:
Bonding smooth to rough porous surfaces
Sealing wood to add strength and stop cracking
Using as a finish
General bonding

Activator 8 oz pump...\$10.00

Accelerating the bond
Pump sprayer uses a solvent carrier that does not affect plastics

Activator 7.5 oz Aerosol Spray, flammable...\$9.00 (best app)
Accelerating the bond, applying directly on the CA to accelerate the cure. Aerosol Activator provides a fine mist and uses a solvent that will affect plastics but will evaporate quicker which will affect the appearance of the CA less

Debonder 2 oz, flammable...\$5.75

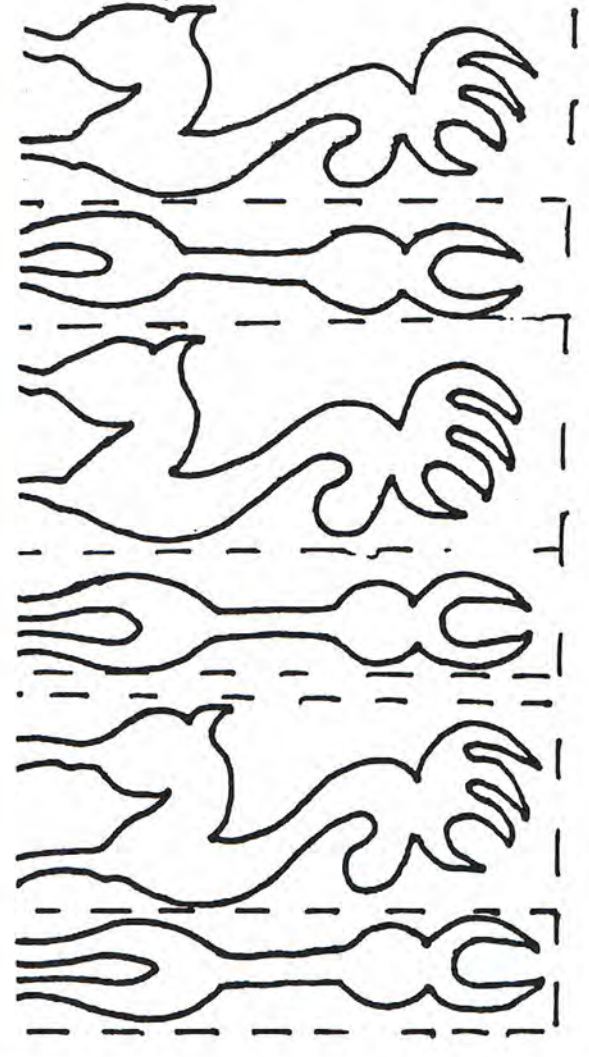

Key Features:
Use for clean up and removal of CA from skin and equipment
Breaks down the molecular structure of Cyanoacrylate
Will not work as a "Thinner"
A must have item for emergencies

Popular Uses:
Unbonding skin
Removing even cured CA from equipment and tables
Remove CA from glass

Get ORGANIZED with our exclusive scroll saw blade rack and tubes

- 6" tube and lid **\$1.00**
- (6) 6" tubes and lids **\$5.00**
- 24 hole plexiglass rack **\$19.95**
- Rack N 10 **\$24.95**
includes (1) 24 hole plexiglass rack + (10) 6" tubes and lids
- Rack N 24 **\$31.95**
includes (1) 24 hole plexiglass rack + (24) 6" tubes and lids
- BEST BUY **\$59.95**
includes (1) 24 hole plexiglass rack, (10) 6" tubes and lids + 1 dozen each #2, #5, #7, #9 and #12 Super Sharps scroll saw blades!

PS Wood Machines' 21" scroll saw

Saw production is temporarily on hold. Parts and service is readily available. Call 1-800-939-4414 for service and parts.

Quick Change...\$69.95

Fits the 21" PS Wood, Sakura, Total Shop and some Woodtek scroll saws. Makes blade change quick and simple. Replaces the upper blade holder, you will still use the lower blade holder. A tremendous help for all kinds of scroll work and especially for those inside cuts!

Blade Alignment Block...\$9.95

Made from clear acrylic and will stand up easily on your scroll saw table. Use to square your blade or set angles 0 to 90 degrees right or left.

Measures 5-1/2" L x 3/8" Thick x 2" Tall

Flexible Air Hose...\$10.00

7 1/2" L X 12 links includes: clamp, hose & coupler

Footswitch
\$46.95
(deadman)

ScrollSanders

Flexible, fabric-backed abrasive strips which hug the edge of sawn wood and won't cut or gouge!

Ideal for:

- Adjusting slots, tabs & half joints
- Smoothing out imperfections
- Reaching into tight curves
- Remove feathering, bumps & burn marks

Correct wandering from a cut line

*Does not fit RBI®, Reliant®, or Moto-Shop®.

Plain end sanders fit most conversion kits for mounting blades with plain ends on pin end saws.

1/4" width - Pin-less \$10.30

contains (2) 120 grit, (1) 180 grit & (1) 220 grit sanders

1/2" width - Pin-less \$10.30

contains (1) 80 grit, (1) 120 grit, (1) 180 & (1) 220 grit sanders

Super Sanders

Install and work just like a scroll saw blade. You can now reach into openings as small as 1/32" and smooth out lumps, bumps and fuzz.

1/8" wide Pin-less \$10.95

Includes 4 double-sided
100, 180, 200 & 320 grit

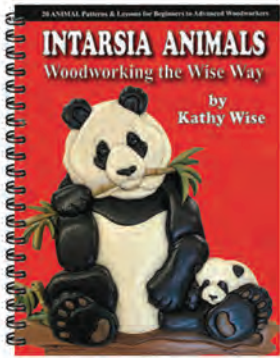

1/4" wide Pin-less \$10.95

Includes 4 double-sided
100, 180, 200 & 320 grit

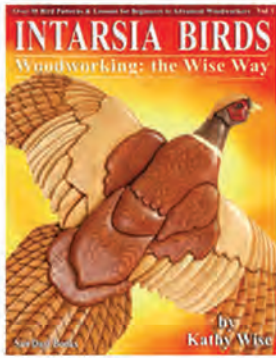

3/8" wide Pin-less \$10.95

Includes 4 double-sided
100, 180, 200 & 320 grit

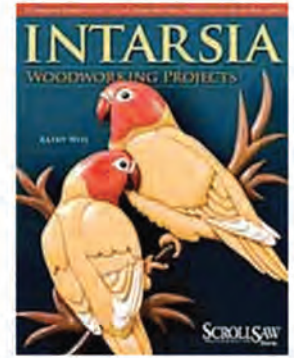

INTARSIA ANIMALS
\$26.95
 20 Animal Patterns for beginners to advanced woodworkers.
 Patterns include: Lamb, Raccoon, Panda, Wolf, Horse, Cow, Bison, Whitetail & Mule Deer, Fawn, Cat, Fox, Bear Cub, Snow Leopard and Squirrel.

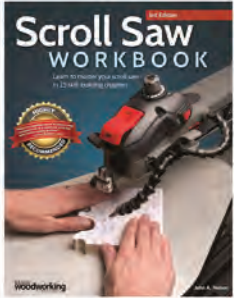

INTARSIA BIRDS
\$19.95
 30 Bird Patterns for Beginners to Advanced Woodworkers.
 Patterns include :
 Eagle, Peregrine Falcon, Robin, Great Horned Owl, Macaw, Turkey, Crow, Screech Owl + more.

INTARSIA FOR BEGINNERS
\$19.95
 Concepts & basics of working with an Intarsia pattern, cutting, sanding, gluing, creating a backer board and finishing.

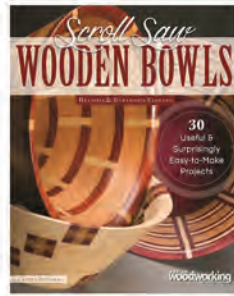

INTARSIA WOODWORKING PROJECTS
\$19.95
 21 Original designs with full size plans and expert instructions for all skill levels.
 Patterns include: Rose, Mallard, Lion, Fox, Lighthouse, Rattlesnake + more.

\$14.95
 3rd Edition
 25 skill building chapters
 Learn how to cut simple straight and curved lines up to stacked cuts, relief, inlay, compound and more.

\$16.99
 40 full size patterns including basic cutouts, coasters, trivets and ornaments

\$19.99
 Revised & expanded edition
 30 projects
 Basic to elaborate bowls such as swag bowl, candy jar, vases, 8-segmented bowls +more.

\$19.99
 50 fun compound-cut designs (over 150 patterns) including jewelry, animals, ornaments, chess sets, plant holders, household items & more!

\$12.99
 24 incredibly unique free-standing patterns. Includes a hiking couple, woman with a book, a person running + more. Patterns for all skill levels and should take about 30 minutes to complete.

MISCHIEVOUS MOOSE Pattern...\$9.95
 THIS IS AN EASY 12 PC PATTERN TO CUT OUT ON THE BAND SAW (or shrink pattern for scroll saw).
 FINISHED PROJECT IS APPROX. 14" L x 9 H.
 YOU CAN MOVE THE ANTLERS TO HOLD A SMALL SERVING BOWL, ETC. AS ALWAYS YOU ARE LIMITED BY YOUR OWN IMAGINATION!

Puzzle Packet (exclusively for PS Wood) **\$9.95**
 25 11" x 17" single sheets of puzzle patterns by John Nelson.
 Patterns: Collie, Clock, Elephant, Train, Alphabet, Heart, Scotty, Moose, Giraffe + more.

Coping Saw...\$11.95

Cut wood trim or shapes in wood projects, or back-cut base and crown moldings like a pro with our chrome plated Coping Saw. With a 360 degree blade rotation, this saw is designed to make angle and curved cuts with ease. It has a 5" cutting depth and comes with a 16tpi blade in standard 6.5" length. This saw has an ergonomically designed cushioned grip handle for comfort that tightens and loosens to change blades.
